*Onyx is one of the densest alpacas on our farm. Density seems to be the specialty of his genetic line, but his fleece also has nice crimp too, especially for a dark color. His dam, our Full Peruvian Mystico Maxina is a **four time color champion** and took **Reserve Champion at AOBA Nationals**. Maxina's crias are a spectrum of colors--black, medium brown, medium fawn, and beige. His sire, Dom Kamil is a light brown Full Peruvian. Onyx is priced to sell, as we are focused on breeding for fawn/ light colors.*
